

BRASSWARE 2026 EUR

SAMUEL HEATH

Handmade in England

Finishes

Chrome - CP

Chrome plate finish is achieved by applying an initial layer of copper, followed by a layer of bright nickel and finally a coating of hard gloss chromium to achieve the lustrous hard-wearing mirror finish.

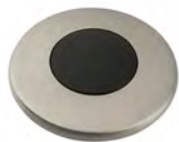

Polished Nickel - PN

Polished nickel is a warm luxurious finish which undergoes the same layering of copper and bright nickel. This finish is left unlacquered to allow its own natural patina to develop over time.

Brushed Nickel - BN

This brushed nickel finish undergoes a layering of copper and satin nickel and is finished with an intricate brushing process to create the desired texture. The finish remains unlacquered to allow its natural patina to develop.

Brushed Nickel with Matt Black Chrome - BNB

This finish combination is available for One Hundred and Landmark collections and combines two popular contemporary finishes. The matt black chrome accents provide a stunning contrast to the brushed satin nickel. This combination remains unlacquered so the nickel will patina over time.

Anthracite - ANT*

Anthracite finish is a dark toned metallic finish which has a layer of nickel to create an underlying warmth. The final lacquering and curing results in a complex colour with cool and warm hues which react with light beautifully. The carefully considered matt lacquer creates a slight sheen which enhances the finish. Due to the nature of the process, there will always be a degree of natural variation in the shade of the components.

Matt Black Chrome - MBC

This coloured chrome finish is achieved by layering copper and satin nickel then a final layer of black chrome plate is applied to create this deep, smooth matt highly durable finish.

Amber Brass - AMR*

This finish is designed to reflect an aged finish with a colour tone reminiscent of amber, the polished surface undergoes a series of artistic colouring and gloss lacquering techniques to imbue the finish with its resplendent sheen and rich warm tones.

Antique Gold - AG

This subtle gold finish is achieved with protective layers of copper and bright nickel with a final layer of 24 carat real gold for a true saturated colour which darkens over time and offers natural resistance to corrosion.

Polished Brass - PB

This natural brass finish has an electrophoretic lacquer applied to preserve its colour and high shine and will maintain its look over time.

Using the finest European brass, our Master Polishers create a perfectly smooth surface with no imperfections. This is crucial in providing a flawless surface so that once electroplated, the finish bares the distinguishing features of depth, lustre and durability that Samuel Heath products are renowned for. An initial coating of copper is not always necessary when plating pure brass but we do so to ensure longevity. Each stage of the process is controlled by skilled technicians to ensure that the optimum depth of metal is applied for a lustrous and lasting finish.

A diverse range of metal and pure brass finishes means Samuel Heath brassware is ideal for both traditional and contemporary settings. Furthermore, many of Samuel Heath's finishes are available across our bathroom and hardware collections, allowing for seamless continuity.

Finish Guarantees

Chrome plated: We offer a **10 year guarantee** on the finish of all chrome plated architectural hardware, bathroom accessories, brassware and thermostatic showers.

Antique Gold: We offer a **2 year guarantee** from the date of purchase on Antique Gold plated finish.

Matt Black: Matt Black is an advanced durable finish which provides resistance to wear and is **guaranteed for 10 years**.

Other finishes: Non-Lacquered Brass, Polished Nickel, Satin Nickel, Satin Chrome, Brushed Nickel, Bronze finish, Antique Brass Unlacquered, Urban Brass and Brushed Gold develop their own patina over time which is part of their charm therefore we do not offer a guarantee for these finishes. City Bronze, Country Bronze, Antique Brass Matt, Antique Brass Gloss, Amber Brass, Anthracite, Brushed Gold Matt, Brushed Gold Gloss, Urban Brass Matt, Old Brass Matt and Polished Brass lacquered are **guaranteed for 5 years**.

Non-Lacquered Brass - NL

This natural brass finish is unlacquered to allow its unique patina to develop over time. Alternatively, if cleaned regularly after use it can maintain its lustre.

City Bronze - CTB*

City bronze is a contemporary dark bronze shade which is a hand applied metallic finish. An application of matt lacquer means that the finish will maintain its colour and look over time and will not patina.

Country Bronze - CNB*

Country bronze is a light, warm shade of bronze which is a hand applied metallic finish. An application of matt lacquer means that the finish will maintain its colour and look over time and will not patina.

Antique Brass Matt - ABM*

This vintage brass finish has an aged brass affect which is achieved using a combination of creative and technical lacquering and colouring processes. The finish is lacquered which allows its original aged look to be preserved over time.

Old Brass Matt - OBM*

Old Brass Matt is an aged brass aesthetic with a warm brass tone with striations of dark tones to create a vintage, layered finish. The additional process of pigmentation allows for the unique dark striations whilst a matt lacquer ensures the finish remains constant. Due to the nature of the process, there will always be a degree of natural variation in the shade of the components.

Brushed Gold Matt - BGM

This brushed gold finish is a natural brass finish which is hand polished and finished with an intricate brushing process to achieve its textured look. A layer of matt lacquer is finally applied to achieve a lasting satin finish.

Urban Brass Matt - URM**

Exclusive to Landmark collection this natural brass finish is part brushed and part bead blasted to create this urban look. A layer of matt lacquer is applied to maintain a lasting matt finish which maintains its look over time.

Antique Brass Gloss - ABG*

This aged brass finish has undergone a process to mimic a patina effect which is achieved using a combination of creative and technical lacquering and colouring processes. The finish has a gloss lacquer which allows it to maintain its original aged look over time.

Brushed Gold Gloss - BGG

This brushed gold finish is a natural brass finish which is hand polished and finished with an intricate brushing process to achieve its textured look. A layer of gloss lacquer is finally applied to achieve a lasting gloss finish.

Brushed Gold - BG

This brushed gold finish is a natural brass finish which is hand polished and finished with an intricate brushing process to achieve its textured look. The finish is left unlacquered to allow its natural patina to develop over time.

Urban Brass - URB**

Exclusive to Landmark collection this dual effect is achieved using part polished and part bead blasting to create this urban styling. This finish remains unlacquered to allow its patina to develop over time.

* There will always be a slight colour variation in components of these finishes due to the hand application process.

** Some components such as shower heads do not go through the bead blasting process. A complete Finish Box and individual finish swatches are available on request.

Landmark Pure thermostatic shower with handset and freestanding bath spout in matt black chrome

LANDMARK

The collection consists of two distinctive variants: Pure with its well-balanced, concise and direct lines and Industrial with its contemporary, bold and urban styling.

LANDMARK INDUSTRIAL – Pages 08 - 73

LANDMARK PURE – Pages 74 - 139

Both variants are available in more than 10 finishes including old brass matt (OBM) and the new anthracite (ANT) finish. We are also offering a range of spout heights and lengths.

LANDMARK INDUSTRIAL – Pages 08 - 73

Bold and authoritative with precisely machined detailing, Landmark Industrial fuses raw with refined in a celebration of contemporary design.

Industrial lever - **LK**

Industrial cross top - **XK**

Lathe lever - **LL**

Lathe wheel - **LW**

Lathe lever and wheel

The Landmark control offering is refreshed by the addition of unique Lathe Lever & Wheel handles that encompass design cues from both Industrial and Pure collections. The new reeded Lathe lever features a bold, straight silhouette and a grip with a fluted pattern, which instils a luxurious experience with every turn. The new Wheel handle references the circular wheel of a manual handlathe - traditional equipment which is still used to produce various products within Samuel Heath's factory. The intriguing pattern to the outer diameter of the wheel is created using the same precision machinery, using a knurling tool method.

LANDMARK PURE – Pages 74 - 139

With minimal embellishment and a deceptively simplistic composition, Landmark Pure is neutral and balanced with concise and direct lines.

Pure cross top - **XF**

Pure lever - **LF**

forme

Speed forme

Classic forme

Oriel forme

Forme is a highly dynamic collection of brass taps, showers and accessories that typifies contemporary minimalism.

Conscious design is embodied in this highly versatile range of brassware. Presenting pared-back silhouettes with slim, curved profiles and three sub-collections of stylised control options for diverse appeal.

Using the same attention to craftsmanship that is embedded in our tradition of excellence, a refined route of manufacturing processes allows for the use of fewer metal parts to conserve precious metals and reduce the factory's consumption of energy. In turn, this means that Forme is more environmentally friendly.

3 Hole deck mounted basin tap with high spout and Speed levers in antique brass matt

Speed forme

Speed Forme brassware presents energy in motion, inspired by the sculpted characteristics of automotive and yacht design.

This dynamic range of brassware for the basin, bath, shower or bidet presents pared back spouts in tall, curved profiles to highlight the symmetry of matching controls. Lever and T-bar options feature angular, continuous lines styled with convex faces on their surface to nestle perfectly in the crease of the palm.

Classic forme

Classic Forme brassware offers timeless style in motion, inspired by the iconic shapes of Art Deco.

This extensive range of brassware for the basin, bath, shower or bidet presents a variety of elegantly slim, smooth spout varieties for deck or wall-mounted specifications. Cross top and lever control options in sharp, geometric shapes contrast as design features, yet their gently curved profiles flow effortlessly within a wider scheme.

Oriel forme

The Oriel family of Forme controls boast four distinct identities to offer further variation to basin, bath, shower or bidet solutions. All are styled in compact roundel shapes that appear suspended on deck or wall mounted application.

Groove and Oriel roundels offer fluted and geometric engravings to introduce refined pattern alongside a variety of tall, curved spouts. The Tab roundel is a soft rendition of modernist design, with smooth tab detailing designed to evoke balance and flow when applied in symmetry.

Pyramid embodies decadence with a series of miniature pyramid engraving around its diameter, encouraging highlights and shadows to interact differently with every finish.

3 Hole wall mounted basin tap with T-bar controls in matt black chrome

ACCESSORIES

Single arm paper holder in antique brass matt

Merging practicality with minimalist styling, the range is designed to add the finishing touch to a beautifully designed bathroom.

The collection is manufactured to the same exacting standards as any other Samuel Heath range, crafted in high-quality brass for a heavyweight experience.

Each accessory is available in a wide range of finishes to complement the wider brassware collection.

SAMUEL HEATH
ONE HUNDRED
COLLECTION

THE ONE HUNDRED
COLLECTION REPRESENTS
OUR INTERPRETATION OF
THE VERY BEST OF
BRITISH DESIGN.

Britain has a long-standing reputation for fine products and luxury experiences. You need only observe the classic lines of a luxury British sports car, the impeccable attention to detail of a Savile Row suit or the effortlessly sophisticated service of an esteemed Mayfair hotel to understand how iconic British brands are created.

With One Hundred we sought to express our own interpretation of timeless British design in two stylistically different yet thematically similar collections. There is an opulence that revels in the grandeur and tactile delight that comes from combining exquisite materials with traditional British crafting techniques. At the same time we have created an understated style and sleek sophistication that has become synonymous with contemporary British design. The two are united in their goal to celebrate the best of British design whilst adding luxury and style to the everyday.

3 Hole basin mixer with metal controls in amber brass

Fairfield

Fairfield taps, showers and bathroom accessories are a balanced combination of the diverse formal design influences of the Arts and Crafts and Aesthetic Movements which flourished between 1880 and 1910. The careful proportioning of Fairfield also reflects the qualities inspired by the era whilst design options are enhanced by a choice of cross-top controls or levers available in crystal, wood, ceramic or metal.

XENON

ACCESSORIES

Robe hooks in urban brass

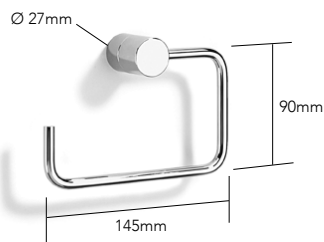

Merging practicality with minimalist styling, the range is designed to add the finishing touch to a beautifully designed bathroom.

The collection is manufactured to the same exacting standards as any other Samuel Heath range, crafted in high-quality brass for a heavyweight experience.

Each accessory is available in a wide range of finishes to complement the wider brassware collection.

Freestanding soap rack in chrome plate

Freestanding Accessories

Beauty and solidity are the defining characteristics of Samuel Heath's freestanding bathroom accessories collection. Classic and contemporary designs are offered as perfect counterparts to our taps and showers. From such necessities as soap and toothbrush holders to striking towel stands, these accessories are the final elements that can make any bathroom complete.

Terms and conditions summary (full details available on request)

PRICES

Goods will be invoiced at prices ruling on date of despatch. All previous price lists are now cancelled. Prices are subject to alteration without notice and do not include VAT. Prices are calculated in Euro.

ORDER CANCELLATIONS

Placing an order with Samuel Heath, or acceptance of a quote from Samuel Heath, means that no further changes or cancellations may be made as we will start production upon receipt of your order or acceptance. Prices quoted are valid for one month from date of quote and are subject to one delivery and no changes to the products ordered.

ADDITIONS TO ORDERS

We process all customer orders upon receipt and are therefore unable to accept any addition to orders once the order has been received.

DELIVERY

Delivery charges depend on the dimensions and weight of the order and its destination. Please contact us for pricing. An additional charge of €25.00 will be added for third party deliveries which must be agreed in advance. Claims will not be accepted where a third-party delivery address has been requested. Claims for non-delivery, shortages or damage to goods cannot be entertained unless we and the carriers are notified in writing within 7 days from the date of invoice.

GOODS RETURNED FOR CREDIT

Goods may only be returned for credit after prior authorisation with our sales office who will issue a goods returns authorization number. Unsolicited returns without an authorization number will not be accepted by the Company. Goods will only be considered for return within 28 days of our delivery date and a minimum handling charge of 25% will be made, subject to the condition of the goods and of the packaging.

RETURN OF SPECIALS

Products made to special order cannot be cancelled or returned once their production has been agreed upon by both parties and a confirmed order received.

RETENTION OF TITLE

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

QUOTATIONS

Quotations issued by Samuel Heath are indicative only and not binding. Unless a period of validity is stated, this should be considered as one month.

PAYMENT

Payment must be made to Samuel Heath in accordance with the invoice terms for the product warranty to be valid.

SPECIAL ORDERS

Agreement must be reached in writing. A signed special order form must be received from the customer in order for production to commence. Upon receipt of this signed order there can be no deferment or cancellation and the customer is bound to pay the full amount due.

LIABILITY

All goods should be checked upon your receipt and prior to installation. All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the seller's works. No claim will be accepted where goods have been used for the purpose for which they were not intended, not fitted correctly, not maintained to the sellers recommended standards or have been abused or misused. Samuel Heath's liability is limited to the replacement of the faulty product only and does not allow for claims for other costs such as damage to products not supplied by Samuel Heath or for working hours or for repairs.

APPLICABLE LAW

The terms and conditions are in accordance with UK law and all claims must be made under the jurisdiction of UK law.

FINISHES

The finish of the product must be cared for in accordance with Samuel Heath's Care Instructions (copy available upon request). Abrasive cleaners must be avoided. Variations in natural metal finishes such as unlacquered brass and bronze are unavoidable in the production process and do not constitute a reason for return of the product.

MECHANICAL GUARANTEE

A 10 year mechanical guarantee is extended on all bathroom accessories and brassware components to be free from malfunction due to defects in material and workmanship. This guarantee is not transferable and excludes all normal wear and tear.

SHOWER GUARANTEE

A 2 year mechanical guarantee is extended on all thermostatic shower components to be free from malfunction due to defects in material and workmanship. For validity it is important that care instructions are complied with. This guarantee does not affect your statutory rights. All products must be installed by a qualified professional installer for this guarantee to be valid. The guarantee period begins from the date of delivery from our factory. This guarantee is non-transferable.

SERVICING

All taps and showers require servicing to ensure continued optimum performance. This requirement is all the more important in hard water areas (risk of limescale). Servicing is not covered by our manufacturer's guarantee and should be carried out by a qualified plumbing engineer.

The information stated within this price book is for guideline purposes. Where flow rates are stated it is worth noting that the suitability of the product and its performance will be determined by the relevant supply pressures being available. Should you require any further information please contact our technical team.

Products featuring the WRAS logo comply with the appropriate water supply regulations in the United Kingdom. Approvals are valid at time of going to print. Latest status can be checked on the WRAS website.

Water-saving
200mm shower heads can be limited to 6.6 l/min.
All hand showers are limited to 6.6 l/min.

If low pressure basin taps are required as water-saving, please contact us to order the relevant aerator.
Water flow from shower outlets and basin taps can be limited to meet water usage requirements such as BREEAM.
Shower valves work at 0.2 bar with a hand shower.
200mm shower heads can work from 0.1 bar on request. Standard 200mm and 300mm heads require min 0.5 bar.

We reserve the right to change our product specification in line with our policy of continuous product development. Technical information given is nominal.

Landmark - Pure basin mixer with slim spout in polished nickel finish
